# Ants in the pants

FLO is only partially a normal teenager. While all his buddies can't think of anything else but that one thing, he can't even spell "S-E-X". This changes dramatically one morning as Flo is awakened and snatched from his child-proof dreams by a strange voice coming from the prominent arch in his sheets. Aroused for the first time and appearing in the flesh is his "best friend" who is speaking to him. He claims that Flo has badly neglected him over the past 15 years and that it is high time to free him from his life in the shadows and to finally become active. The "limp" existence shall end, which means: nothing will ever be the same again...

Flo begins to enjoy his new world. His buddies RED BULL, SCHUMI and DIRK are all amazed over this abrupt change in their friend's life-style as Flo, the next morning in school, pop-eyed, watches the eighth wonder of the world strut by. LEONIE is probably the most beautiful, authentic blonde on the earth. Now he understands the odd behavior of his "Luu-Luu" - as his parents lovingly would call the "thing" - it does have an incredible, shapely reason for coming alive!

Energetically driven by the voice from between his legs, Flo dares to attack the radiant beauty. And what nobody thought possible happens: with an entrance that literally knocks Leonie over, he gets his first date. While Flo can't believe his luck, Red Bull knows too well what this means: "it" will happen for the first time! Kindly concerned about the sexual reputation of his inexperienced friend, the self-proclaimed "Sex-Expert" prepares Flo for the end of virginity. And so a fast crash-course begins. The fact that the object of desire is the girlfriend of the school's notorious psychopath KAI, doesn't bother them much at first...
